

Seal kit

TS = Ball seal PTFE

TSC = Ball seal PTFE+C

TSS = Ball seal stellite

DN-size, nominal size given with three numbers

Flow port diameter (mm), given with three numbers

TS_100/100

E = Special solution

O-ring material

V = FPM (Viton)

E = EPDM

N = NBR (Nitrile rubber)

T = PTFE

F = FEP

A = PEPM (Aflas)

Body material

J = Aluminum

H = Stainless steel

K = Steel

Material of ball seal

TS = Standard PTFE
